

ORGANIC APPLIQUÉ WORKSHOP

with Kathy Doughty Material Obsession

For your workshop, select any project from the book Organic Applique by Kathy Doughty.

Classes begin with a conversation about colour, value, scale and texture to create interest while developing confidence in choosing fabrics. Guidelines for selecting fabric, considering value, scale and more are all reinforced with a language developed at Material Obsession over the last 16 years. Classes then include demonstrations using a few simple techniques that allow for easy expression of personal choices. Techniques include needle turn using wash away stabilizer, boro applique, broderie perse, paper piecing and hand quilting with perle 8.

The content of Organic Appliqué is designed to inspire experienced applique artists to embrace the freedom of breaking routines. Novice quilters will achieve success with helpful instructions. Everyone will have fun!

Requirements:

Organic Appliqué By Kathy Doughty - All patterns are in the book

Available in USA from C&T publishing Phone: 925-677-0377
